TECHNICAL BULLETIN

GREENSOLV 950 gel ULTRA-POWERFUL DEGREASER

1) PRODUCT DESCRIPTION

GREENSOLV 950gel is a great solvent (orange peel extract) based degreaser used to clean bituminous hydrocarbons, tar, adhesives and waxes accumulations.

GREENSOLV 950gel is designed to be used on all types of metals, painted surfaces, concrete, masonry, plastics (except acrylic) & glass. The product can affect certain types of plastics, paints and rubber; it is therefore recommended to proceed to a spot test before using it on such surfaces.

Typical applications

Dissolving Tar & asphalt
Heavy degreasing

Concentration of GREENSOLV 950

Pure
Pure

2) ADVANTAGES

Based on an elaborate blend of biodegradable solvents and surfactants, **GREENSOLV 950gel** is best used for applications where contamination is severe (tar, adhesives, asphalt, oils, greases).

Its main benefits are:

- Rapidly dissolves hydrocarbons (tar, asphalt)
- Heavy duty degreaser
- Terpenic solvent based (orange)
- Biodegradable
- Can be used on almost any surface : metals, paint, plastics, glass, etc.
